Your trusted partner in worldwide trade.

Salmon Fish Details

Introduction

Salmon is a popular fish known for its rich taste and high nutritional value. However, real salmon is a cold-water fish and is not naturally found in India. In Andhra Pradesh, people commonly refer to 'Rawas' as Indian Salmon.

Types of Salmon Available

1. Indian Salmon (Rawas): Locally available, affordable, and commonly consumed.
2. Imported Salmon: Comes from countries like Norway; expensive and usually frozen.

Availability in Andhra Pradesh

Salmon (Rawas) is widely available in coastal fish markets such as Kakinada, Ramanayyapeta, and Rajahmundry. Imported salmon is available in limited stores or online.

We transform the richness of premium salmon fish into excellence you can trust.
With every batch, we deliver consistency, flavor, and superior quality.
Carefully selected to enhance texture, taste, and natural tenderness in every dish.
Supporting chefs, businesses, and seafood lovers with reliability and innovation.
Together, we create exceptional seafood experiences that bring joy to every table.
